Re: Community Giving

Humboldt Redwood Company, LLC (HRC) has an established Community Giving Program designed to review and consider Non-profit funding requests in a fair and equitable manner. The company accepts requests for donations from local Non-profit organizations within Humboldt County from September 1-November 15, for funding consideration in the coming year. Requests received after November 15 will not be eligible for consideration, with the exception of youth sports and education programs. These programs will continue to be considered for year-round funding, as long as the company's giving funds have not been fully allocated.

Non-profit organizations with 501(c) (3) status may request funding over \$250. Non-profit organizations that do not hold 501 (c) (3) may only be considered for funding up to \$249. Funding priority may be given to programs designed to impact a broader group, in support of youth sports and education, the elderly, those less fortunate, the environment, safety, and those organizations the company has supported in previous years.

Requests should be submitted in writing with a brief narrative of the organization and its charter mission, and a description of how the requested funds would be used. Please submit on your organization's letterhead and mail to: HRC, Attn: Community Action Team, P.O. Box 712, Scotia, CA 95565, or submit via e-mail to jcurteman@hrellc.com.

Award recipients will be notified of approved funding early in the first quarter of the coming year.
